

JUNIOR KINDERGARTEN

Our Junior Kindergarten Program is a licensed preschool which has been educating children ages 3 and 4 since 2005. Our teachers are fully qualified Early childhood Educators who have a personal relationship with Christ. At CCS, we strive to develop the child spiritually, intellectually, socially and physically through structured instruction. The children are taught how to view the world from God's eyes. Daily activities that are integrated in each class include: circle time, story time, calendar, snack, arts & crafts, singing, learning centers and outside play when weather permits.

INTERNATIONAL

It is our objective to provide a safe, understanding, Christ-centered environment for our International students while they stay in Canada. Over the course of the year, we host special activities for our international students and their families, helping them learn more about the Canadian Culture. We take both long term & short term students. For more information, contact Sheri Guse — international@cornerstoneschool.ca

**CORNERSTONE
CHRISTIAN SCHOOL**

"Building into Your Child's Future."

Why Cornerstone?

Cornerstone Christian School exists to provide a Christ-centered education of the very highest academic quality and Biblical training for life from Junior Kindergarten to Grade 9. Cornerstone is an accredited and certified Group 1 school with the BC Ministry of Education.

For over 40 years, Cornerstone has been equipping children with social and academic tools. Most importantly, students are taught about the one and only God who created them and who loves them so much that He gave His only Son, Jesus, to die for their sins. It is our hope that our students accept Christ as Saviour and desire to serve and follow Him, using their gifts for the benefit of others and to glorify His name.

"Train up a child in the way he should go; even when he is old he will not depart from it." ~ Proverbs 22:6

Students are taught...

... to see and experience.

... a joy for learning.

... to appreciate the wonder of creation.
